(In the space provided below, please explain in detail the reasons for the delay in filing a proper reply)

On October 14, 2003, the Applicants filed a response to an office action sent by the Patent Examiner. On December 23, 2003, the Applicant and the Patent Examiner briefly discussed the case. An agreement for an examiner's amendment was reached as a result of the discussion. The Applicants subsequently received an Interview Summary, an Examiner's Amendment, and a Notice of Allowability. No Notice of Allowance was received. The Notice of Allowability stated "If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. Since no response was required by any of the received documents, no required action was placed into our docketing system. During a periodic file review in August of 2004, it was discovered that no notice of allowance was ever received. The Applicants then contacted the Examiner to determine the status of the case. The Examiner insisted that a Notice of Allowance had been issued even though the Applicants never received such a Notice of Allowance. The Examiner further stated that the case had gone abandoned that since the issue fee had not been paid. The Applicants therefore promptly filed this petition for revival in order to obtain the allowance of the case. Thus, the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition under 37 CFR 1.137(b) was unavoidable.
